

About Morph ICT Passionate about Education

Committed to providing high quality school ICT support. We pride ourselves on our professional and friendly approach in meeting the needs of our clients.

We are able to offer bespoke support packages tailored for your school providing you and your staff more time to do the work they need to do while we handle your technical issues.

We know our customers want to focus on productivity that meet the needs of their students. To reach this goal, you need to be sure that your systems and technical infrastructure are robust, reliable, secure and efficient. At Morph ICT we don't believe in selling you what you don't need. We listen to your needs and aim surpass your requirements.

Regular checks on your system enables us to prevent problems from occurring.

We strive to provide you with the latest technology news and developments so you can future proof your ICT equipment.

Our years of experience working within the education sector, has given us an insight into the world of education. We believe that our services truly reflect these experiences. We have taken the best experienced elements in education and further developed them to provide a superior service for all.

Our experiences in different environments has only strengthened our beliefs that technology should be accessible to all.

Morph ICT Health Check

Take our ICT health check and we will provide you with a full system audit. A frank and simple report that will highlight any issues we see. Once you have read your report we can then provide a development plan to help you prepare for the future. Here are some of the key features of the report:

- Hardware Age
- Warranty Status
- Disaster Recovery Assessment
- Asset Audit

Our health check can be used to help develop your ICT strategy and development plan.
